# About

I am Cécile Detienne, founder of Capucine Atelier Floral. My passion for flowers began in the garden of my childhood, alongside my grandmother. After studying garden architecture in Belgium and gaining ten years of experience as a project manager, I decided to redirect my life to follow my true vocation. I then resumed my studies to become a floral designer, training with inspiring creators.

In 2011, I opened my own floral studio, a space where I can now fully live my passion and channel my creativity into floral design and wedding decor.

At Capucine Atelier Floral, we prioritize a sensitive approach, using all our expertise in floral decoration. Each project is a unique opportunity for us to enhance the most important moments of your life, paying special attention to the details and carefully selecting high-quality materials.

Because a wedding is much more than just an event, it's a story that we write together. Our goal is for each floral chapter to be perfectly aligned with your expectations.

CAPUCINE ATELIER FLORAL offers  
a DELICATE and NATURAL floral universe,  
custom-designed to reflect your story  
and elevate each moment of your wedding.

A romantic wedding scene featuring a bride and groom in a lush garden. The bride, wearing a long white gown and a full veil, is being kissed on the cheek by the groom, who is dressed in a dark suit. They are standing in front of a large, ornate archway completely covered in a dense arrangement of pink, white, and red roses and other flowers. The background is filled with more floral arrangements and greenery, creating a soft, dreamy atmosphere. The word "Processus" is centered over the image in a white, elegant serif font.

# *First encounter*

It all starts with your message, whether through our form or by email. This is your first gesture of trust and anticipation. We would be happy to send you our brochure, which introduces our services and unique approach, and creates a connection between your desires and our expertise.

# *Echange*

During our conversation, we will take the time to understand your wishes. We will discuss your wedding style, the date, the venue, the colors, and the visual inspirations that inspire you. Every detail will be considered to create a floral atmosphere that will enhance every moment of your day, from the ceremony to the reception, with particular care for each element.

# Illustrated Quote

After our conversation, we will send you a detailed proposal with an itemized quote. You will be able to see the floral atmosphere we envision for you. Once approved, we will refine the details : flower selection, materials, schedule... to ensure everything is perfect.

# Reservation

Once our proposal is approved, we will send you the contract for signature, along with a request for a deposit. From that moment, your date will be officially reserved, and we will begin preparing the flowers with care and passion.

Please note that we generally work with a minimum floral budget of :

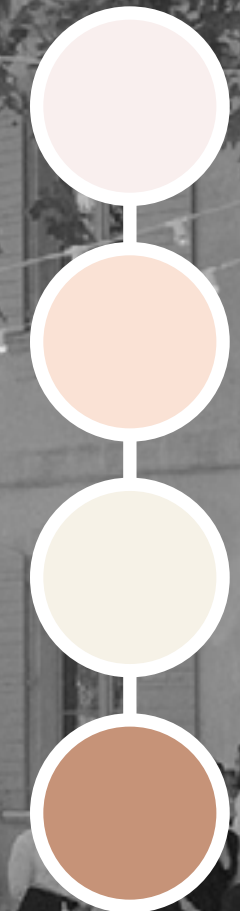

€15,000

to ensure the highest quality and meticulous attention to detail. This budget allows us to guarantee luxurious floral creations, tailored to the desires of your event.

# *Tailor-made proposal*

Once the project is confirmed, we will send you a complete creative brief: the color palette, chosen flowers, and mockups of the arrangements. This is the opportunity to confirm or adjust the final details, that everything perfectly aligns with your expectations before the final implementation.

# Service

Throughout this process, we remain available to guide and assist you, ensuring every detail aligns with your vision. On the D-Day, we will install the floral decoration at each of your wedding locations, taking care of all the logistics. After the event, we will dismantle the setup and collect our materials. You won't have to worry about a thing :
